Male-typed minus female-typed jobs: male version favored more often
24 rerankers; Pearson r = 0.62, Spearman = 0.65
bars: 95% range over résumé draws
open marker: most CVs still cut at the model's limit
red diamond: released after the audit (Oct 2026)
* listwise, order-sensitive: both orders averaged
same gap as in the synthetic audit
